Discipling adults is about relationships, not a course to complete. This session overviews a proven-plan in personal disciple-making.

Leading a Child to Christ. Too often, children's leaders and parents do not feel equipped to share the gospel, or they lack the understanding of how to talk with children about salvation in terms that children can understand. And, once children accept Christ as their personal Savior, they are encouraged to share the good news with their friends. But, are they prepared for the task? This conference will offer training to know how to lead a child to Christ.
